

INTRODUCING

2 Great New Products

Xcluder™ Rodent Proof Door Bottom Seals for Commercial and Residential Applications

- Reduce maintenance costs and improve health and safety regulatory compliance with Xcluder™ Door Bottom Seals.
- The soft seals on overhead and roll-up doors provide little resistance to rats and mice and are one of the most common rodent entry points.
- Xcluder™ Door Seals feature our patented Xcluder™ fill fabric providing an easy to install barrier that is virtually impenetrable to rodents. The durable outer gasket ensures a lasting, dependable weatherseal saving you money on heating and cooling expenses.

Vehicle Detection - Carsense CS303 Sensor & Controller

Features advanced 3-axis, magnetoresistive sensing technology. The sensor measures Earth's magnetic field and responds to disturbances caused by ferrous objects. The CS303 combines this exciting new technology with a fieldproven hardware platform to produce a high-sensitivity, compact, and cost-effective solution.

- **No loops = Substantially reduced install Time / Cost**
- **One straight cut and your done or install above grade**
- Can be used for boom gate control, drive thru and car wash detection, loading docks truck detection, vehicle counting in car park and toll booths
