SUPER HINGE SYSTEM

Save Money! Save Energy!

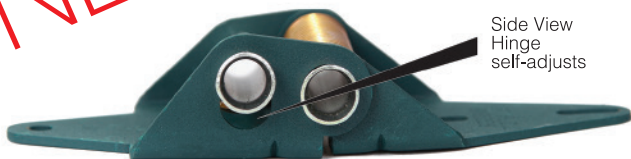

The **Green Hinge System** saves energy and money because it aligns the overhead door to seal properly. Unique **spring-loaded** hinge allows for self adjustment of the overhead door providing a **close, tight seal**. Having an overhead door that is aligned and sealed properly **saves money** on heating and / or cooling, which **saves energy**.

Protection for Personnel and Equipment

LiftMaster's® **LC-36A** Light Curtains provide 36 in. of coverage to keep your customers, employees and equipment safe.

Must be used with a primary entrapment device and be installed

along the vertical plane of the door. The light curtains are NEMA 4 rated, which provides protection against direct water spray and makes the LC-36A ideal for use in auto dealerships, fire stations, municipal garages and commercial storage facilities.

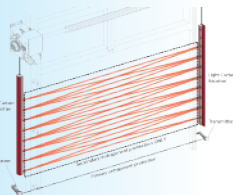

Image shows infrared beam pattern which is not visible to the naked eye.
